## Saloon refresh

When going out to party is out of the question, your superyacht's saloon takes centre stage. Lucia Ferigutti picks three schemes to try

## MODERN DECADENCE

### Melody sideboard ▼

Marble, plush velvet, precious crystals and jewel tones make the perfect backdrop for an evening on board to remember. Bring it all together with this sideboard (below), designed by Luca Roccadadria for Cantori. With a wooden frame and metal doors, it's the play on geometry – circles and squares – that makes it interesting without drawing too much attention from the rest of the decor. There is also a matching cabinet which would fit a smaller space – or provide extra storage for endless cocktails. POA, cantori.it

## ELEVATED NEUTRALS

### Armani/Casa Pretty dormeuse ▲

A pared-back palette will ensure a relaxing space – but keep it interesting by mixing unusual shapes and textures. Armani/Casa's Pretty dormeuse was designed to sit in the middle of the room so as to be admired from all perspectives. The empty space below the seat gives it a light feel, while the off-centre backrest draws the eye towards its rounded silhouette – which is further enhanced by the platinum-lacquered base.
